Ensure the type is Mac OS X and the version is macOS 10 12 Sierra (64-bit) (there is a High Sierra option too, but I chose Sierra by accident and it worked) Untick Floppy in System Motherboard Boot Order; Use = 4096 MB of memory in System Motherboard; Use = 2 CPUs in System Processor; Use 128 MB of video memory in Display Screen.. Although there was lots of guides around the web, none seemed to work from start to finish.. 12 Sierra (64-bit) (there is a High Sierra option too, but I chose Sierra by accident and it worked) Untick Floppy in System > Motherboard > Boot Order Use >= 4096 MB of memory in System > Motherboard Use >= 2 CPUs in System > Processor Use 128 MB of video memory in Display > Screen Optionally enable 3D acceleration in Display > Screen Remove the IDE device in Storage > Storage Devices and replace it with a SATA controller Add a new hard disk device under the SATA controller with >= 60 GB of space Ensure an optical drive is present under the SATA controller and mount the previously created ISO to it Untick the Enable Audio option under Audio After creating the virtual machine with the above configuration, hit OK and exit the settings screen.. Welcome, here I will show you to Download macOS High Sierra for VMware & VirtualBox Image.. Now, a number of extra options need to be set If you're on Windows, you'll need to cd into the appropriate directory under the VirtualBox installation path to run VBoxManage.. For Linux users, this should be in your PATH variable already: After running the above commands, the VM should be ready to boot! Step 4: Installation This is where near enough everything I read stopped, despite there being one more problem in the way - UEFI.. Boot into the VM, go into Disk Utility and erase the virtual disk that you added to the machine.. Step 1: Download The High Sierra Installer To do this, you need to be on an existing macOS system.. macOS High Sierra is the fourteenth major release of macOS or Apple company, Typically you can install macOS High Sierra on Macintosh as an operating system, macOS High. ae05505a44 [Euforia Program Maine](#)
